

SEEDS is a joint collaboration between Galderma UK and independent consultant dermatologists from south-east England

Dear GP

GP Postgraduate Dermatology Education Programme

In its third year, you are invited to attend the ongoing dermatology educational programme for GP postgraduates as part of SEEDS: South East Education for Dermatology Services.

The next event will be held on Thursday 30 March 2017 1:00 – 5:00pm at Worthing Health Education Centre.

The programme is aimed at all GPs within Primary Care who manage skin problems in the community, in support of ongoing personal development.

The curriculum has been designed to cover the most relevant and important topics within Dermatology, providing hints and tips for differential diagnosis, and the most up to date treatments and referral pathways.

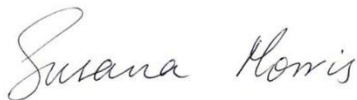

We aim to rotate Worthing and Brighton locations and are delighted to add West Kent to the programme for 2017.

Education will be provided by local dermatology specialists and certificates of attendance equivalent to three hours of CPD points will be awarded to all attendees on each training day.

We very much look forward to welcoming you to the **next meeting of SEEDS on 30 March 2017 in Worthing.**

To register your attendance for this and future events listed, please contact Helen West at helen.west@galderma.com or 07702 777031.

Yours sincerely,

Dr Susana Morris

Consultant Dermatologist & Dermatological Surgeon
Sussex Community Dermatology Service

This programme has been organised by Galderma (UK) Ltd and co-sponsored by Dermal Laboratories Ltd, Apodi Ltd and LEO Pharma
Certificates of attendance provided for all attendees
